5	**Digital Marketing & AIO**	Digital Marketing, SEO, Content, AI Optimization	3 – 4

2.1.1 AI/ML Developer - Intern

Explore and develop AI-powered applications, intelligent automation workflows, and machine learning solutions for real-world business use cases.

Key Technologies: Python, Machine Learning, Generative AI, LLMs, AI APIs.

Key Responsibilities

- Develop AI-powered applications and automation workflows.
- Work with Large Language Models (LLMs) and AI APIs.
- Assist in building and testing machine learning solutions.
- Integrate AI capabilities into web and mobile applications.

Required Skills

- Basic knowledge of Python and programming fundamentals.
- Understanding of AI/ML concepts and data handling.
- Familiarity with Generative AI, LLMs, or AI APIs is an advantage.
- Analytical thinking and eagerness to explore emerging technologies.

2.1.2 Full stack developer - Intern

Work on end-to-end web application development, including frontend interfaces, backend logic, database management, and API integration.

Key Technologies: PHP / Python, MySQL, PostgreSQL, JavaScript, React.js, Node.js, JQuery.

Key Responsibilities

- Develop and maintain web applications using PHP, Python, MySQL, PostgreSQL, JavaScript, and modern frontend technologies.
- Build responsive user interfaces and develop backend functionality and APIs.
- Understand database design, application architecture, and integration.
- Debug, test, and optimize applications for performance and reliability.
- Collaborate with the development team and follow coding standards and Agile practices.

Required Skills

- Basic knowledge of programming concepts, HTML, CSS, JavaScript, and PHP or Python.
- Understanding of databases and SQL fundamentals.
- Logical thinking, problem-solving ability, and a willingness to learn.
- Strong commitment, discipline, and a collaborative attitude.

2.1.3 Mobile app developer – Intern (Android, iOS, React Native)

Develop and maintain mobile applications for Android and iOS, focusing on user experience, performance, and application functionality.

Key Technologies: React Native, Android, iOS.

Key Responsibilities

- Develop and maintain mobile applications for Android and iOS.
- Integrate APIs, databases, and third-party services.
- Test, debug, and optimize app performance.
- Collaborate with designers and developers to deliver quality applications.

Required Skills

- Basic programming knowledge and problem-solving skills.
- Familiarity with React Native, Android, or iOS development.
- Understanding of APIs, JSON, and mobile UI principles.
- Willingness to learn and work on real-world projects.

2.1.4 UI/UX Developer - Intern

Design intuitive, engaging, and user-friendly interfaces for web and mobile applications. Translate business requirements into effective user experiences and visual designs.

Key Skills: UI/UX design, wireframing, prototyping, Figma, responsive design principles.

Key Responsibilities

- Design intuitive and engaging interfaces for web and mobile applications.
- Create wireframes, prototypes, and user flows.
- Translate business requirements into user-friendly designs.
- Collaborate with developers to ensure design consistency and usability.

Required Skills

- Familiarity with Figma or similar design tools.
- Understanding of UI/UX principles, typography, colors, and layouts.
- Basic knowledge of responsive design and usability.
- Creativity, attention to detail, and problem-solving ability.

2.1.5 Digital Marketing – Intern (SEO, AIO, Content)

Contribute to digital growth through search engine optimization, AI search optimization, content creation, social media marketing, and performance-driven digital campaigns.

Key Skills: SEO, AIO (AI Optimization), content writing, social media, analytics, and digital marketing tools.

Key Responsibilities

- Execute SEO activities, including keyword research and on-page optimization.
- Create engaging content for websites and social media.
- Assist with AI Optimization (AIO) to improve visibility across AI-powered search platforms.
- Support digital campaigns, analytics, and performance tracking.

Required Skills

- Basic understanding of SEO and digital marketing concepts.
- Good content writing and communication skills.
- Familiarity with social media platforms and digital marketing tools.
- Interest in AI-powered search, content optimization, and analytics.

2.2 Internship & Career Pathway

2.2.1 Internship & Remuneration

- **Duration:** 6 months.
- **Monthly Stipend:** ₹10,000–₹15,000, based on skills and suitability.

- **Career Opportunity:** Candidates who successfully complete the internship and meet company expectations may be offered direct consultant job with a 1.5-year contract agreement.

2.2.2 Terms & Conditions

- **Selection Process:** Candidates must successfully clear all rounds of the campus recruitment process, including technical assessments, group discussions (if applicable), and personal interviews.
- **Work Location & Availability:** Selected candidates must be available to attend the company's Ahmedabad office on a full-time basis during the internship and subsequent engagement, as applicable.
- **Post-Internship Commitment:** Candidates accepting a post-internship consultant engagement must agree to a minimum service commitment of 1.5 years, commencing from the date specified in the consultant engagement agreement.
- **Attendance & Performance:** Candidates are expected to maintain regular attendance, punctuality, discipline, and satisfactory performance throughout the internship.
- **Document Verification:** Candidates must provide accurate academic records and other documents reasonably required for verification and security.
- **Professional Conduct:** Candidates must demonstrate professional behavior, integrity, and compliance with company policies and applicable laws.
- **Confidentiality:** Candidates must maintain the confidentiality of company, client, project, and business information in accordance with the applicable confidentiality terms and agreement.

2.3 Who We Are Looking For – Ideal Candidate

Degrees matter. Mindset matters more.
We are looking for students and fresh graduates who demonstrate:

🧠 **Problem Solving**
You enjoy figuring things out.

🔍 **Curiosity**
You ask "Why?" and "What if?"

⚡ **Learning Ability**
You can learn a technology you've never used before.

🛠️ **Builder Mindset**
You like creating things rather than only studying them.

🤝 **Teamwork**
You can work with developers, designers, managers and clients.

🎯 **Ownership**
When you receive a task, you take responsibility for getting it done.

💬 **Communication**
You can explain your thinking clearly.

🚀 **Growth Mindset**
You see your first job as the beginning of your learning journey.

2.4 Our Campus Selection Process

ROUND 1 — Aptitude & Logical Thinking + Role Based Tech Assessment

- Online test at College Campus
- Different assessment according to the role.
    - **AI/ML:** Python + ML + logical problem solving
    - **Full Stack:** Programming + PHP/Python + SQL + web fundamentals
    - **React Native:** JavaScript + React + mobile concepts
    - **UI/UX:** Design thinking + UI/UX exercise + portfolio
    - **Digital Marketing & AIO:** SEO + marketing fundamentals + analytical thinking + content exercise

ROUND 2 — Group Discussion

At College Campus for the selected candidates from Round 1

ROUND 3 — Role-Based Personal Interview Assessment

At College Campus or at Ahmedabad Office based on the time availability
